

JAVA INTERVIEW QUESTIONS

Table of Contents

Core Java.....	2
Exception Handling.....	3
String.....	4
Functional Programming.....	4
Multithreading.....	5
Synchronization.....	5
Collections.....	6

Core Java

1. [What are the features of Java ?](#)
2. [What is JVM, JRE and JDK ?](#)
3. [Why Java is called platform independent ?](#)
4. [What are classes and objects ?](#)
5. [What is a constructor ?](#)
6. [Does Java always provide a default constructor for every class ?](#)
7. [What are the uses of this keyword ?](#)
8. [What is a static variable ?](#)
9. [What is a static method ?](#)
10. [Can a class be static ?](#)
11. [Which modifiers can be used with a class ?](#)
12. [What is method overloading ?](#)
13. [Why Method Overloading is not possible by changing the return type of method only ?](#)
14. [What is Composition ?](#)
15. [What is Inheritance ?](#)
16. [Which class is the parent of all classes ?](#)
17. [What are the different types of inheritance ?](#)
18. [What is a super keyword ?](#)
19. [What is method overriding ? How is it different from method overloading ?](#)
20. [Explain runtime polymorphism in Java.](#)
21. [Are static members of a parent inherited by the subclass ?](#)
22. [Can we override static methods ?](#)
23. [Can a reference of child class hold an object of parent class ?](#)
24. [What is constructor chaining ?](#)
25. [Can constructor be inherited ?](#)
26. [What are access modifiers ?](#)
27. [Which access modifiers can be used with a class ?](#)

28. [If we are overriding a method in a subclass, can this child method have different access modifier compared to the parent?](#)
29. [What is an abstract class? What are its properties ?](#)
30. [Do an abstract class have constructor ?](#)
31. [What is an interface ?](#)
32. [Can interface have concrete methods ?](#)
33. [What are the differences between abstract classes and interfaces ?](#)
34. [What are the three types of variables in Java ?](#)
35. [What are wrapper classes ?](#)
36. [Explain internal caching in wrapper classes.](#)
37. [What is a final variable ?](#)
38. [What is a final method ?](#)
39. [What is a final class ?](#)
40. [Explain JVM memory management](#)
41. [What is Garbage Collection ?](#)
42. [What is Metaspace ?](#)
43. [Which class is the parent of all classes ?](#)
44. [What is equals\(\) method ?](#)
45. [In which class is the default equals\(\) method defined ?](#)
46. [What is the difference between == and equals\(\) method ?](#)
47. [What is hashCode\(\) method ?](#)
48. [Default implementation of hashCode depends on memory address. An object's memory address may change after garbage collection. Will hashCode\(\) method return a different value in this scenario ?](#)
49. [What is toString\(\) method ?](#)
50. [What is Cloning? Differentiate deep and shallow cloning.](#)
51. [What are the disadvantages of using clone\(\) method ?](#)
52. [What is finalize\(\) method ?](#)
53. [What is a marker interface ?](#)
54. [What is Serialization ?](#)
55. [What is serialVersionUID ?](#)
56. [What is a Transient Variable ?](#)
57. [Explain instance and static initializer block ?](#)
58. [What are the different ways of creating an object ?](#)

Exception Handling

1. [What are checked and unchecked exceptions?](#)
2. [What class is the parent of all exceptions?](#)
3. [What is the difference between Error and Exception?](#)
4. [What is finally block?](#)
5. [What is final, finally and finalize?](#)
6. [What is the difference between throws and throw?](#)
7. [Can we use parent exception to catch a child exception?](#)
8. [If the parent class method throws an exception, can the overridden method in child class throw a different exception?](#)

String

1. [What are checked and unchecked exceptions?](#)
2. [What class is the parent of all exceptions?](#)
3. [What is the difference between Error and Exception?](#)
4. [What is finally block?](#)
5. [What is final, finally and finalize?](#)
6. [What is the difference between throws and throw?](#)
7. [Can we use parent exception to catch a child exception?](#)
8. [If the parent class method throws an exception, can the overridden method in child class throw a different exception?](#)

Functional Programming

1. [What is a functional interface ?](#)
2. [Can a functional interface contain concrete methods ?](#)
3. [Explain @FunctionalInterface annotation.](#)
4. [What is a Lambda expression ?](#)
5. [When can we omit braces and return statement in Lambda expression ?](#)
6. [Name some of the built in functional interfaces ?](#)
7. [What is a Function ?](#)
8. [What is a Predicate ?](#)
9. [What is a Supplier ?](#)
10. [What is a Consumer ?](#)
11. [How can we connect two Consumers ?](#)
12. [What is Stream. How is it different from InputStream and OutputStream ?](#)
13. [Explain terminal and non terminal methods of Stream.?](#)
14. [What is a method reference? Explain different types of method reference ?](#)
15. [Explain filter\(\) method.](#)
16. [Explain map\(\) method.](#)
17. [Explain flatMap\(\) method.](#)
18. [Explain distinct\(\) method.](#)
19. [Explain limit\(\) method.](#)
20. [Explain peek\(\) method.](#)
21. [Explain anyMatch\(\), allMatch\(\) and noneMatch\(\) methods.](#)
22. [Explain collect\(\) method.](#)
23. [Explain count\(\) method.](#)
24. [Explain findAny\(\) and findFirst\(\) methods.](#)
25. [Explain forEach\(\) method.](#)
26. [Explain min\(\) and max\(\) methods.](#)
27. [Explain reduce\(\) method.](#)
28. [Explain toArray\(\) method.](#)
29. [Explain Method reference.](#)

Multithreading

1. [What is Multithreading ?](#)
2. [Explain life cycle of a thread.](#)
3. [What are the two ways of creating a thread ?](#)
4. [What is the difference between start\(\) method and run\(\) method in a thread ?](#)
5. [What is the difference between Thread and Runnable ?](#)
6. [What are the various methods in a thread ?](#)
7. [What is join\(\) ?](#)
8. [What is a daemon thread ?](#)
9. [What is Thread Pool ?](#)
10. [What is Thread Group ?](#)

Synchronization

1. [Why do we need synchronization ?](#)
2. [What is static synchronization ?](#)
3. [What is synchronized block ?](#)
4. [What is the purpose of wait\(\) and notify\(\) ?](#)
5. [What are the differences between wait\(\) and sleep\(\) ?](#)
6. [What is deadlock ?](#)
7. [What is starvation ?](#)
8. [What are the disadvantages of synchronization ?](#)
9. [What is Lock ?](#)
10. [What problems do Lock solve ?](#)
11. [What is volatile variable ?](#)
12. [Compare volatile and synchronization ?](#)

Collections

1. [Name implementations of List interface .](#)
2. [What are the features of ArrayList ?](#)
3. [What are the features of LinkedList ?](#)
4. [What are the similarities and differences between ArrayList and LinkedList ?](#)
5. [What are the features of Vector ?](#)
6. [Is Vector obsolete? Why ?](#)
7. [What is Comparator ?](#)
8. [What is Comparable ?](#)
9. [Differentiate Comparator and Comparable .](#)
10. [What are the implementations of Map interface ?](#)
11. [What are the features of HashMap ?](#)
12. [Explain internal working of HashMap ?](#)
13. [What is Load Factor of Map ?](#)
14. [What are the features of LinkedHashMap ?](#)
15. [Explain internal working of LinkedHashMap ?](#)

16. [What are the features of TreeMap ?](#)
17. [Compare HashMap, TreeMap and LinkedHashMap](#)
18. [What are the features of Hashtable ?](#)
19. [Why Hashtable is obsolete ?](#)
20. [What are the differences between HashMap and Hashtable?](#)
21. [What are the features of ConcurrentHashMap? Explain its internal working .](#)
22. [What is Set ?](#)
23. [What are the implementations of Set interface ?](#)
24. [Differentiate List and Set .](#)
25. [What are the features of HashSet ?](#)
26. [Explain internal working of HashSet .](#)
27. [What are the features of LinkedHashSet? Explain its internal working .](#)
28. [What are the features of TreeSet ?](#)
29. [Compare HashSet, TreeSet and LinkedHashSet](#)
30. [Explain Fail Fast Iterators .](#)
31. [What are the disadvantages of NON Fail Fast Iterators ?](#)
32. [What is modCount of a Collection? What is its use ?](#)
